Hi, I am Software Engineer with the proven international experience.

I want to be on the edge of constantly developing and progressing technology world and that is the reason why I am a tech sphere worker. I am working in mobile application industry because the mere idea of people using my application on their phones mesmerizes me.

The source of my inspiration – thoughts of me leaving legacy in IT products, which are used by thousands or millions of people around the world. I feel crazy expanding energy around me while thinking about it.

I am looking for the opportunity to work on the exciting and interesting project. I am a sociable person thus I am looking for the possibility of developing horizontally same as vertically.

Feel free to watch my video CV and read my CV. I will be glad if you invite me for the interview where we can discuss all the opportunities waiting for both of us.
